

United International University (UIU)
Department of CSE
CSE 465 Web Programming
Class Test-1

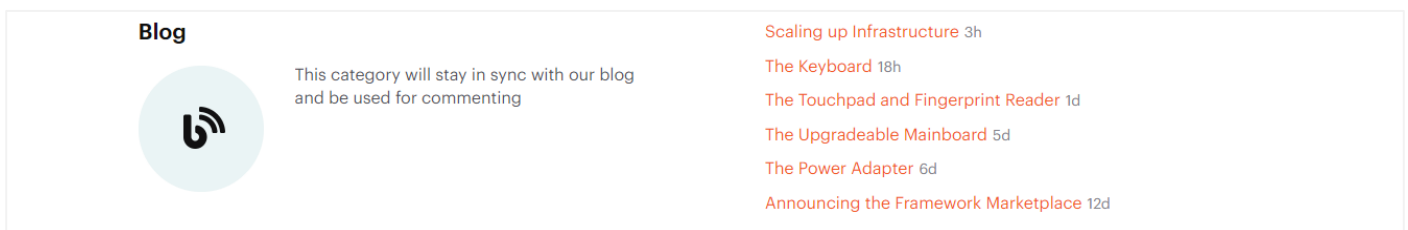

Full Marks: 10

Time: 20 min

Answer all the questions. Your answer script/filename must contain your name and ID.

If any portion of answer is found to be copied from other scripts, both will be marked as zero regardless of other answers.

Write the HTML and CSS code to generate the following view. **You must use only Flexbox and other common CSS properties (as shown in the class) to generate the view.**

-Mark Distribution-

Make sure that-

3 + 2 + 5 = 10

1. All the text and images are there.
2. All the colors three colors (orange, black, and gray) are there. The orange tone is = Red: 244, Green: 90, Blue: 99
3. All the elements are properly aligned and spaces. The gray border of the image represents the browser window, you don't need to draw this.
